This certification is based on compliance with the Canadian *Organic Production Systems General Principles and Management Standards CAN/CGSB-32.310* and *Permitted Substances Lists CAN/CGSB-32.311 – 2006*, as amended from time to time. Certification remains in effect until surrendered by the holder, revoked by the **Pacific Agricultural Certification Society** or until the effective period of certification terminates. Extending certification requires an annual update of the organic production/handling plan, annual inspection and annual certification review by PACS. Failure to reapply prior to the termination of the effective period of certification identified above (or by an earlier renewal date, as stipulated by the PACS office) results in a state of non-compliance which can lead to suspension and cancellation of certification.
